ENGINEERS AND ELECTRICIANS TURN OFF ALL THE LIGHTS-THE PLAN TO RESTORE DIS

CERDS, FOR NO LIGHT, NO PAPER. Exactly at midnight last night the Pulitzer Buildinged into total darkness from basement People working in the building, wh tric light suddenly went out, concluded that temporary kind of aberration, to which chting apparatus is sometimes given at nexpected moments, had taken place. But as the mts went by with the darkness continuing, an attempt was made to light the gas jets, but the ef-fort was fruitiess, for the reason that the gas was nd to be cut off. Then it dawned upon the and the newspaper employes that wrong, and inquiries quickly showed that organized strike among the engineers, firemen etricians had broken out

as could be learned last night, it seems strike was due to the action of George H. Read, an estate agent, of No. 9 Pine-st. A few ecks ago the Pulitzer Building was given over charge of Mr. Read for renting purposes, the very day he took control he precipistrike among the elevator men by reducing their salaries and lengthening their hours of duty week it was said the engineering and electrical department was also placed under the control of Mr. Read, and the men engaged in said last night that he immediately ben to cut down expenses by introducing nonwith the ultimate intention of getting eld of the union workmen. However that may be oubted that non-union men were engaged st week, and the discharge of one of the old en-

it is undoubted that non-union men were engaged last week, and the discharge of one of the old engineers yesterday morning determined the other trades-unionists to the last night's issue.

Conferences were held during the day, with the result that shortly before 12 p. m. the electric engines were stopped and the fires raked from beneath the boilers. The precaution had also been neath the boilers. The precaution had also been taken beforehand to plug up the main gas pipes. In a newspaper office the midnight hour, as the strikers well knew, was an extremely awkward one to delay the work of the establishment, and the chances of the paper making its appearance this morning were critical. Without light, work in the composing and editornal departments was of necessity at a standstill. A few enterprising reporters, in an endeavor to find a way out of the difficulty, rushed downstairs and bought at an exorbitant price the oil lamps off the street fruitstands, but upon being carried carefully up eleven stories the miful and spluttering glimmers only served to intensify the black gloom into which the entire building had been thrown.

Manwhile a conference between a deputation of the strikers and the business manager was on in the business office and the dispute was finally settled. It was stated that the manager agreed to discharge the non-union men and restore to his position the discharged engineer. Accordingly at a few minutes to 1 o'clock work was resumed, but it was doubtful if the paper could be published in time to catch the usual early newspaper trains.

A verdict of not guilty was rendered with regard to the direct charge of embezzlement, but the court found that Colonel had applied to his own use a certain amount of coal belonging to the Government. court ignored the specification that the amount of coal taken was forty-eight tons, valued at \$20%, and failed to specify the actual amount unlawfully used.

The sentence of the court was that Colonei Forney be reprimanded in general orders by the Secretary of the Navy, but so far these findings have not been acted upon by the Secretary.

Colonel Forney is the Commandant of Marines at the Portsmouth (N. H.) Navy Yard. He was on duty at the Brooklyn Navy Yard in a similar capacity when the alleged embezziement and nexcept of the Marine Corps, who is only one number above Colonel Forney, preferred the charges.

BOY.

Washington, Oct. 8.-Owen Jones, hailing from New-York State, called at the White House to-day to see the President. He presented a newspaper poem, the burden of which was that a boy was wanted by the Executive's family, and in all seriouswanted by the Executive's family, and man schools ness offered himself for adoption or employment in that capacity, together with a letter stating that he could wash dishes and make himself useful in other ways. As Owen had prefaced his coming by a threatening letter to one of the White House employes who had prevented his admittance to the mansion on a former occasion, he was taken into custody by the police.

PACIFIC RAILROAD BONDS LOOM UP. THE TREASURY DEPARTMENT SCRATCHING

Washington, Oct. 8.-The Treasury Department is cessity for providing funds to meet obligations of will fall due \$8,640,000 of bonds issued on account of these railroads, as follows: On November 6, Kansas Pacific bonds, \$640,000; on January 1, Central Pacific, \$1,600,000; Kansas Pacific, \$1,440,000; Central branch Union Pacific, \$640,000; on February 1, Union Pacific, \$4,320,000

Notice has arready been given that the \$640,000 due on November 1 will be paid on that date, but serious questions. These amounts, it is understood gladly welcomed. The Secretary was doubtless commend in his report to Congress that legislation be passed by which the bonds can be refunded at a lower rate of interest. The brief period which will intervene between the date of the assembling of Congress and that of the maturity of the bonds, as well as the opposition which any proposition respecting the Pacific Railroad's debt always evokes, precludes the possibility of anything being accomplished that will relieve the Treasury situation.

ALMOST HAD THRIR FIGHT IN COURT.

Things looked "squally" for a time in the County Court at Elizabeth, N. J., yesterday, and severa men nearly came to blows, but the court officers interfered. It was during the trial of the suit for libel against Thomas F. Lane, Editor of "The Summit Record," brought by Dr. William H. Lawrence, Town Committeeman and Town Treasurer of Summit. Some time ago Editor Lane said Dr. Lawrence had put men to work at the expense of rence money they owed him. The paper also im-

for the awarding of a certain contract to lighting.

During a court recess many of those interested in the case gathered inside the inclosure for the lawyers, among them Dr. Risk and Dr. Lawrence. They held an animated conversation, and Dr. Risk said that the entire township committee was influenced by improper motives in awarding the contract. Charles S. Day, chairman of the committee, overheard the remark, and, rushing at Dr. Risk shouted:

"Do you say that I was guilty of improper mo-

tives?"

Dr. Risk mumbled something that was not heard by the others present, when the court officers rushed in and spoiled a big fight, as both men had partisans in the courtroom, and they were at fever heat. The case will consume severa! days.

THE JERSEY CAMPAIGN.

EVERY DAY ADDING TO DEMOCRATIC DIS-COMFITURE AND DISMAY.

ampaign in New-Jersey has occupied all the attention of the politicians, and the Democrats have been standing by watching the procession and throwing an occasional brick. Republican meet-ings are under way in all parts of the State, and the attendance at all has been large. Confidence in Republican success prevails, and while it is it a powerful influence, it is sustained by the attitude of hundreds of Democratic and independent

voters in every community.

The main issue of the campaign is just where it was a year ago and efforts to shift position have failed miserably. The object of the voters, a shown last November, was to "clean out the gang." The Governorship remains in Demeratic hands, and when this last post is carrie there will be some disposition on the part of the This determination est part has never faltered.

cerned, the Republicans come in for all the criti In naming Chancellor McGill, and providing that he should remain on the bench, the Democrats asserted the right to do all the criticism that could bear upon the personality of the candidates. Their own candidate was to remain on a pedestal, sacred and aloof, while they were to have the privilege of lying and blackguarding to their hearts' conten They are probably disappointed in the result. be named, and they unanimously agreed that When he was nominated they were bound to con ceded that remarks now made by Allan L. ause some of his arguments have been so made and addressed that they were reasonably certain to harm McGill's campaign much more than the Republicans, and it has been wondered whether the Chancery Cierk was not playing a game not un familiar to him and much against the interests of the man who presides over his court. mott's large share in the Democratic campaign is of great benefit to the Republicans. He is the ms who above all others represents the objectionable features of bossism. When he lengthened the term of the Mayor of Jersey City and had himself nor nated for Mayor, he was repudiated by the Demcrats there, and a Republican took the office for the lengthened term. He it was who put through he racetrack bills, who manipulated the coal combine, who attempted to keep the Senate Demo eratic by declaring that ten was a majority of twenty-one. All that is disreputable in the Dem hargeable in whole or in part to him. And no whose son-in-law was put on the Court of Appeal will be in the hands of the next Governor what of McDermott, Senator Smith, Miles Ross and "Billy" Thompson? The same old gang non inated him and now runs his campaign. he would be the personification of ingratitude of repudiate the more respectable element is a pro-

or nearly so, and it has been due to the pronounced mittee to go slow on this matter. They said, quite truly, that the Republicans are in power in the mans had found no ground for criticism upon th issue of the campaign raised by the Democrats was the water matter. The fact that Mr. Griggs was counsel in court for the East Jersey Water Company was made the basis of an attack upon him. to the effect that he was identified with a monopoly in water supplies. This might have served as "good-enough Morgan" for Jersey City, which is just making a contract with a water company not in the alleged monopoly, but it was coupled with a declaration in favor of "State control." To have a declaration in favor of "State control." To have the State take charge of all the water supplies and pay the shot has been a favorite plan with a few; but it may be imagined that it is not a popular project with localities which already have their supplies and which would be expected to contribute to the State scheme. The proposition, moreover, means delays in getting a new supply for Jersey City, and the condition of the water there is not such as to make any delay tolerable.

A MISTAKEN ISSUE.

But it was gross folly to raise this issue when every Democratic boss was identified in the water schemes for which the Republican candidate, who was not personally concerned in them to any degree is now assailed. Senator James Smith was the mar

is now assailed. Senator James Smith was the man who put the Newark deal through; Miles Ross was the Lehigh Valley's lobbyist at Trenton for the necessary legislation, and all the rest of the gang were more or less concerned. To dig up all the scandals in relation to the Newark water contract would be the natural result of continuing the agitation. It is, therefore, hoped that the Democratic leaders will continue this discussion. It would lead to interesting developments.

So Democratic powder has burned in vain and the Republican cohorts march on. There never was so great a political meeting in Newark as that which Senator Griggs addressed last Friday night, and the meetings in Morristown, Dover, Frinceton, New-Brunswick, East Orange and Montelair have had as remarkable, each in its way. This week the candidate is in Jersey City, Mount Holly (at the fair) on Thursday, at the Monmouth County Convention on Friday and at Red Bank in the evening, and winds up the six days and nights of work in Bergen County. Next week Mr. Griggs will devote to South Jersey, the week following to the western counties and the last week to Hudson, Essex and Passaic. He is in excellent condition and has kept the issues where they belong-upon the Democratic misgovernment of recent years, the necessity for a different kind of State administration, and the prominence of the Democratic bosses in the present campaign.

The Democratic State Committee has a lot of

different kind of State administration, and the prominence of the Democratic bosses in the present campaign.

The Democratic State Committee has a lot of trouble on its hands, in local rows in Hudson County. The committee is inexperienced and Chairman Young, who is reported to be confined to his house by a cold, is really a sick man and may not be able to do much more. Meanwhile ex-Senator Blodgett, who has been repudiated by every Democrat. Is in charge of the committee, and it would be interesting to learn whether he is yet on speaking terms with the men who are to do the speech-making for the committee.

The fact that the Democrats are utterly discouraged is made evident on every side. They have run their campaigns on a money basis for years, and this year have no money; they have fixed up majorities in Hudson County to suit themselves, and now the Sheriff and city government are against them there, and they dare not commit a fraud. And they have last year's 48,000 majority to overcome before they can begin to see daylight. However, their candidate still has his office of Chancellor.

The Union League Club of Jersey City will this

vening give a reception for ex-Senator John W. Griggs. It will be public, and a general invitation has been extended to the people of Hudson County, without regard to politics. It is expected that a great many Democrats will avail themselves of the opportunity to make the acquaintance of the Re-

Discussing National politics, Mr. Hinrichsen said he thought that the delegates from Illinois to the National Democratic Convention next year will be instructed to vote for W. R. Morrison for President. He thinks there is a general drift of sentiment throughout the West and South in favor of Colonel Morrison's nomination, and that this sentiment will grow from now until the meeting of the convention. "It looks at this time," Mr. Hinrichsen said, "as if the fight le the convention will narrow down to a choice between W. C. Wh'tney, of New-York, and Colonel Morrison. I understand there is some sentiment favorable to Whitney's nomination existing among Chicago Democrats, but it does not extend through the State."

TO LEAD WESTCHESTER REPUBLICANS. NOMINEES OF THE COUNTY CONVENTION HELD AT WHITE PLAINS.

The Republicans of Westchester County met in County Convention in St. John's Hall, at White Plains, yesterday, and piaced in nomination a strong ticket. The convention was called to order shortly after 11 o'clock by Judge William H. Rob ertson, who named as the County Committee's kers. The nomination being approved Mayor Peene was escorted to the chair by James F. Lawrence, of Lewisboro, and Gideon W Davenport, of New-Rochelle, William J. Charleton, of Peckskiii; J. L. Taylor, of Greenburg; E. J. Delaney, of Yonkers, and William F. Rowe, of Sing Sing, were named as ately to place in nomination camildates for county offices. After a heated debate, it was decided to place in nomination a candidate for county clerk immediately after the nomination for county judge. The latter nomination being in order, Charles H. Young, of New-Rochelle, named Smith Lent, of Sing John Henry Clapp, of Port Chester, was also named. DE, TALMAGE IN WASHINGTON.

HE IS RECEIVED BY THE PRESBYTERY AND GOES HOUSE-HUNTING.

Washington, Oct. 8.-The Rev. T. De Witt Talmage and his two daughters arrived in Washington this morning, and this afternoon began hunting for a house. After breakfast Mr. Talmage attended a meeting of the Presbytery of Washington City, at which the letter from the Presbytery of Brooklyn dismissing the distinguished preacher to Washington was presented by the Rev. Adolos Allen, assistant pastor of the First Presbyterian Church of this city Then the call to Dr. Talmage to become co-pastor of the First Church was read, and by a unanimous vote placed in Dr. Talmage's hands. The moderator vote placed in Dr. Talmage's hands. The moderator then asked the usual question of Dr. Talmage as to whether he would accept the cail.

"I do," was the response in the familiar tones of the Brooklyn preacher. This constituted the entire public utterance which Dr. Talmage made on this occasion. The installation ceremonies will be held on the evening of October 23. The Rev. Dr. David Gregg, of Brooklyn, will preach the sermon, and the Rev. Wallace Radeliffs, the new pastor of New-York Avenue Church, Washington, will deliver the charge to the co-pastor. HOW HARRIS PROCURED POISON.
